

ProTect Home

HOME, SAFE HOME

The fundamental thing for safety in **MY HOUSE** is to take awareness that:

1. Most home robberies are due to the lack of safe physical conditions, carelessness and personal recklessness, lack of companionship and a sense of solidarity.
2. I cannot trust that my neighbors or neighborhood in which I live is exempt from criminal events.

Prevention and self-protection in the field of MY HOME requires:

- a. Use housing accredited as safe in YOUR facilities, location and surrounding streets.
- b. Get to know your neighbors personally and share with them the basic self-protection measures.

Tecnológico de Monterrey carries out programs of:

- Coordination with the authorities to ensure public services in areas near the campus.
- Relationship with neighboring companies in the campus area.

Tec Residence Halls are available with security and protection protocols.
